MANSLAUGHTER CHARGE AFTER JEEP ACCIDENT

A manslaughter charge has been filed in the justice court of Will Van Dyke against Arthur Wilson of Irmulco, driver of the jeep in which Ralph Carver of Willits lost his life on the Fort Bragg-Willits road, Friday night. Carver's jugular vein was severed by the windshield as the jeep overturned.

Wilson told Deputy Sheriff Reno Bartolomie that he was going about 40 miles per hour when he passed a truck driven by Luther Sherburn of Willits; after passing the truck he said the jeep began to slide on a turn in the road and turned over. Wayne Buckart and Carver were occupants of the jeep with Wilson. Carver was a woodsman who lived with his mother and son in Willits.

Luther Sherburn of Willits witnessed the accident which cost the life of Carter. He met the jeep about two miles west of Richardson's Mill as the jeep was coming around a curve and driving fast. Looking back he saw the jeep appear to turn end over end, with the back end going as high as 14 feet. Sherburn's party stopped and went back. Carver passed away almost immediately. The other men escaped injury.

Tragic Mill History Is Revived

A ghost has materialized!

The Ghost Mill of Mendocino county has come down to earth in reality in a representative shareholders suit filed in the Superior Court of this county by Attorney Leo Cook.

More than 40 years ago the Andersonia Mill near Piercy was built. The timber holdings were extensive and the mill one of the largest and finest of its time. The machinery was the latest and best on the market.

When the first log rolled under the saw the owner of that mill was killed and it shut down that very hour, never to open again.

For nearly half a century it has been known as the Ghost Mill. Time has taken its toll of the mill; bats and birds and creatures of the forest have occupied the once proud structure. But the timber holdings have developed through the years.

The complaint filed by shareholders on behalf of the corporation asks to have a receiver appointed, to remove directors from office, to recover damages from those directors.

Defendants named are members of the same family that built the mill, Andersonia Lumber Co., Sam Anderson Jr., Edna . Anderson, R. G. Anderson, Lucille Anderson. They are names as stockholders and members of the board of directors.

The station consists of an operating console which controls all the radio receivers and radio transmitters. It will provide flight assistance service to aircraft of all types, military, civilian, commercial working in conjunction with the Oakland Air Traffic Control Center.

The plans for the station anticipate also making hourly weather observations. The station will operate 24 hours per day and will have a total of five aircraft control communicators. A. A. Covert, maintenance technician, in charge of all maintenance connected with the equipment, is now located in Ukiah. He came some time ago from Los Angeles, accompanied by his wife and two children. The five extra communicators are expected to come to Ukiah from Newhall, California, when operations get underway.

"Omni Directional"

Radio range, which will operate from this station, is the latest development in air navigation facilities. It is known as very high frequency "omni directional"; it provides an infinite number of visual lateral courses within a radius of 50 miles at the minimum instrument altitude.

The console is the newest development for operating position. It eliminates the necessity of installing radio receivers in the operating room. The stations are established by the CAA to promote and encourage civil flying. Similar stations have been established at Williams, Red Bluff and Montague.

Teletype Connection

The station is connected by long line teletype with all CAA stations between San Francisco and Seattle, Salt Lake City and return to San Francisco. Such a station is now under construction at Crescent City and one is planned for Arcata.

RIFLE BULLET KILLS WOMAN AT LAYTONVILLE

A tragic accident occurred in the Ray Blossom home at Empire Camp, 50 miles north of Laytonville Sunday evening. Reports indicate that a gun which Ray Blossom was repairing and cleaning went off unexpectedly and the bullet caused the death of Mrs. Bretta Blossom, 50, his wife; before she reached the hospital at Laytonville.

According to the story told to Sheriffs officers, Mr. Blossom was cleaning a 22 rifle in the kitchen of the home, the gun had been jamming on him and he was taking it apart. Every third or fourth shell would jam as the rifle was tried and he would take out the shells with an ice pick.

On the second re-loading the first shot went off. Mrs. Blossom was seated on a stool at the stove about 10 feet away from her husband. The bullet entered the abdomen.. She gave a scream and fell from the stool. Guy Thomas was in another room of the house. He and Mr. Blossom rushed Mrs. Blossom to Dr. J. B. Keaster but she was dead upon their arrival.

18 MONTHS OLD CHILD STRICKEN WITH LEUCEMIA

Nicki Ann Toth In San Francisco Hospital

Tragedy struck the home of a Ukiah family last week when it was learned that Nicki Ann, 18 month old daughter of Mr. and Mrs. John Toth of Cochrane Avenue is a victim of Leucemia—a blood disease for which there is no known cure.

Dr. Arthur Miller received a phone call from the child's mother on Monday, June 13, stating that Nicki Ann wasn't feeling well and seemed to be quite weak. He examined the child that evening and suspecting the serious nature of her ailment made complete laboratory tests Tuesday afternoon. He was assisted by Dr. Glenn Miller and Norman Miller, of the Mendocino County Clinical Laboratory.

On Tuesday evening, July 14, little more than 24 hours after the parents suspected the child was not normally well, they heard the tragic report. Dr. Miller made arrangements for Nicki Ann to be received at Children's Hospital in San Francisco, and she was taken there early Wednesday morning. L. L. Whitmore, manager of the local E. C. Kraft Co. store where Mr. Toth is employed, drove the young parents down.

Further tests were made in San Francisco confirming the early diagnosis and it was deemed advisable to transfer the child to the Laboratory of Experimental Oncology at the Laguna Honda Home in San Francisco. Set up under the auspices of the University of California, this laboratory is financed by the U. S. Government for cancer research. Leucemia is said to be cancer of the blood.

Here Nicki will receive cross blood transfusions—a phenomenal new method of treating the disease. A recent issue of Time Magazine carried a complete story of this new process. Doctors at the Oncology Lab. explained that it involves the direct transfusing of blood between two patients, one a leucemia victim, the other a patient who needs the white blood cells of which the former has an excess.

But although these cross transfusions are found to be of temporary benefit they are only an experimental treatment — and not a cure. These young parents, who are expecting a second child in August, have been frankly told there is no real hope. They

Smiling, rosy-cheeked, a mountain of security, he shepherds the little children across the street. He is their friend, their protector, their laughing pal, on occasion . . . and who of us would have it any other way! So let's be considerate and really warm-hearted toward our fine Policemen. FIRE PROTECTION COMMITTEE OUTGROWTH OF HOPLAND BLAZE

The formation of a fire protection committee is the most recent outgrowth of the major blaze in Hopland which on June 9th destroyed a downtown lumber yard and two cabins. Damage was estimated at more than $20,000.00.

The entire community was grateful for the assistance given by the different fire trucks who came to the scene of the fire and actually saved the Pomo Inn and the two homes on the Dav Henderson ranch and probably saved many more buildings on Main Street. It is believed that if the large wooden structure of the Pomo Inn had caught the fire and heat would have been too much to extinguish before other buildings were endangered. The lack of any wind during the hot afternoon hours and the efforts of the people of Hopland were a contributing factor in getting the fire under control.

In the four dwellings that were burned six children were homed. The two children of Mr. and Mrs. Charles Bishop are Marcia and Michael and although most of the Bishop belongings were saved by the people they suffered quite a loss. The Bishops had planned to move into the former Midge Faught home the day after the fire and so had a home into which they moved the things they saved from the fire. Mr. Bishop was working in Coverdale at the time as was Mr. Watts and the two men arrived here after their homes were demolished.

In the Watts family there are four children all under five years of age. Bill is five; Sharon, four; Susan, three, and Baby Roger is not yet two. Roger was asleep at the time the fire started and he was handed by his mother to Mrs. Bishop through the window. The Watts family is grateful to the Vincent Lottis for giving them rooms in the Pomo Inn until they could find other accommodations and to the people in Hopland who gave clothing especially to the children. They have moved to Cloverdale.

Both Mrs. Inez Philbrick and Bob Cooper lost everything they had in their homes. Mrs. Philbrick watched her home go up in smoke and Mr. Cooper arrived after the fire was under control. Mrs. Philbrick is a member of the Millikan family from Mendocino and among the things she lost were many family treasures along with many useful and sentimental articles she used in her teaching profession. She went to Willits for the weekend but returned to complete this week as teacher of the fifth and sixth grades. She is staying in one of the Ashurst cabins this week and the Ashursts plan to rebuild a home for her. She will return to Hopland in the fall to resume her teaching duties. Mr. Cooper returned to find his belongings demolished.

Two boys were injured in assisting the moving of furniture from the buildings. They were Walter LaDelle who cut his hand and Douglas Hooker whose foot was hurt when a heavy refrigerator dropped on it. He was taken to Ukiah and treated by a doctor there.

Insurance

Although the buildings were partially covered by insurance none of the occupants had any personal insurance.

It was four years ago, nearly to the day, that Mr. and Mrs. Thomas Ashurst lost their home and furnishings at the same scene as this fire. When they rebuilt their home they built a cement brick shed in the back of it which certainly saved their home at this time. A galvanized roof on the shed was melted by the intense heat. This year the fire happened the day of the grammar school picnic; four years ago it was a few hours before the graduation exercises.

Fire Committee.

Saturday night the people of Hopland met at the Pomo Inn to discuss fire protection. Vincent Lotti was chairman of this meeting and Richard Metzler was secretary. Two committees were appointed. On the fire protection committee appointed are Cecil Taylor, Lee Castiaux and Mrs. Melo Zanoline. On the water and sanitation committee are Carl Rock, Vincent Lotti and Mose Metzler.

The fire committee will contact experts to evaluate the situation and offer the best solution possible to meet the needs of the community. The water committee will attempt to have engineers give an estimate of the cost of installing an adequate water and sanitation system.

Two Damage Aftermath of August Fatal Collision

Two damage suits have been filed in Superior Court against Mr. and Mrs. John McDermont and Worthy A. Duncan, Sr., both resulting from a collision on the Redwood Highway, south of Hopland, August 1, 1948.

Franklin L. Vagt asks damages for personal injuries and expenses involved of $30,702.15; Mr. and Mrs. Clarence Robertson claim damages in the sum of $10,944.30. Their son Marvin Clarence Robertson, was fatally injured in the accident, according to the complaint on file, and died the following day, August 2, 1948.

The McDermonts and Mr. Duncan were both driving in a southerly direction when the accident occurred which caused the collision with the Robertson automobile.

Attorney Hale McCowen represents the plaintiffs in the suits.

JUST CAN'T RESIST ORPHAN BABY FAWN EYES? . . . READ ON . . .

California vacationers and apparently abandoned fawns are combining to give wardens of the Division of Fish and Game their annual Summer headache.

The irresistible appeal of an "orphan" baby deer each year brings out a rash of impromptu adoptions in violation of the Fish and Game Code, wardens report.

Aside from the illegal aspect, there's usually more trouble in store for well-meaning citizens when the fawn loses its baby charm and approaches surly maturity. Many serious injuries have been chalked up by ungrateful deer in captivity.

But most important, say those who know, is the fact that a fawn is seldom far away from the watchful eyes of its mother. Would-be woodland social workers are actually breaking up a happy family in almost every case.

One warden puts it this way: "We're tired of playing nursemaid to confiscated fawns. Arrests and convictions will be made for possession of deer out of season or fawns at any time."

REEVES CANYON DAMAGE ASKED

A camp in Reeves Canyon established some 50 years or more ago is being damaged by logging operations in the neighborhood, according to a complaint on file in the Superior Court.

Everett C. Cox and Clair Holliday have asked the court to order the defendants to pay for cutting timber on their land in Reeves canyon and for throwing brush and debris in the stream which flows through the camp; also for obstructing the road into the camp. Damages asked amount to $4,950.

A second suit asks rent in the sum of $1075 with interest at seven percent for the use of land for loading purposes between April 15 and May 27, 1949.

Defendants in the first suit are H. E. Cooper, Fred H. Biester Sr., C. & B. Logging Co. and Stanley Richardson. Defendants in the second suit are the same with the exception that Stanley Richardson is not named.

The camp in question is well known to many residents of this valley for two generations. The owners have always been most open-handed and generous in permitting the use of the camp and the spot is a favorite with many fishermen and picnickers.

The law firm of McCowen & McCowen represents the plaintiffs in the suits.

CHARM CALMS MENTAL PATIENTS

GRACEFUL PIVOT is demonstrated for mental patients

AP Newsfeatures

PUEBLO, Colo.—The state hospital for the mentally ill is experimenting with lessons in charm and poise as a means of speeding recovery of its women patients.

Patients are being taught how to walk gracefully how to use their hands expressively, how to smile becomingly.

Dr. F. H. Zimmerman, hospital superintendent, says the program seems to have definite merit when combined with routine medical procedures. "The women we're using in our test program," he says, "appear less withdrawn, more interested in recovery than some of their companions."

The project was the idea of Cesare Morganti, who runs modeling and charm schools in Denver and Pueblo. Hospital doctors selected nine women in the hospital. They ranged in age from 22 to 50, had various types of mental sickness. Some had been in the hospital a few months, others a few years, one for 13 years.

Miss Juanita Phillips, one of Morganti's professional models, teamed with a hospital nurse to instruct the new class. The nurse, aside from understanding the mental quirks of each patient, is a fair hand at the piano. She plays peppy music during exercise periods, slow-rhythm melodies for "practice walking," and so on. Says Miss Phillips of the patients:

"From the start they showed more interest than women on the outside, because they believe the lessons will help them. One of the class was able to return to a normal homelife when the charm course was only half completed. Another woman told me the course has taught her to be punctual, has made her aware of dressing better and using cosmetics correctly."

According to Dr. Zimmerman one of the most encouraging aspects of the experiment is that the women in the class "arouse considerable interest among other patients" when they return to their wards.

expect no miracles—but night and day they pray for one!

A Ukiah neighbor met the parents in San Francisco and stayed with Mrs. Toth until Sunday evening when a family friend, Mrs. Louis Shupe of E. Perkins Street drove down to remain with Mrs. Toth until the arrival of her mother from Cleveland, Ohio. Nicki Ann's grandmother is expected to arrive from the midwest tonight.

Mr. Toth returned to San Francisco Friday afternoon remaining there until Sunday night and is in daily contact with his wife by telephone.

County Blood Bank Responds To Call

Through the services of the Mendocino County Blood Bank credit has been awarded Nicki Ann through the Irwin Memorial Blood Bank in San Francisco so that she is assured of an unlimited supply of blood for the cross transfusion.

Scores of neighbors and friends of Mr. and Mrs. Toth have called asking if they couldn't be of help and volunteering blood donations. To clarify the matter for all these people who sincerely want to be of help, we called Mrs. Bernice Faas, official representative in Mendocino county for the Irwin Memorial Blood Bank.

Mrs. Faas explained that an unlimited supply of blood has already been arranged for Nicki Ann from credit supplied by past donations of Mendocino County residents. Friends who wish to help can do so by donating a pint of blood here when the traveling unit of the blood bank arrives in Ukiah in the very near future. At that time, and the date will be announced in local papers as soon as it is known here, residents of the county are urged to make a contribution to replace credits being used now, and those that have been used for other emergency cases since the last visit of the blood bank nearly two years ago.

Any resident of Mendocino County may appeal for emergency blood. You do not have to have been a donor to be eligible for help. But in order to assure an adequate supply of blood to cover all emergencies in this area, County residents are asked to contribute during the visit of the traveling unit.

CO. COMMITTEE DESIGNATED TO CONFRONT DOUGLAS BILL BACKERS

On the committee to oppose the Douglas Bill are: Frank Gale, Russell Ells, Charles M. Mannon, Fred Rawles, E. T .F. Wohlenberg, James McNamee. This committee was appointed by the board of supervisors at the last regular meeting.

The Douglas Bill, proposed by Dewey Anderson of Los Altos, executive director of the Public Affairs Institute, was presented at the National Emergency Conference on Resources held in Washington in May. Inasmuch as it may soon appear in legislative form in Congress and in Federal Government Administrative channels in Washington D. C., the Redwood Empire Association has taken the initiative in opposing the bill.

In summary Congress and the California Legislature are to be asked to pass concurrently legislation establishing a public National Redwood Forest Corporation. This corporation will consist of three officers ,its chairman being the chief of the United States Forest Service; one member being appointed by the President from the public at large; the third member being chosen by the President from a panel of California citizens submitted by the Governor of the State. The national legislation setting up the corporation will authorize its financing by the Reconstruction Finance Corporation under provisions that will insure the full payment of all sums borrowed. The state legislation will commit California to the payment of certain sums for new parks.

The purpose of the corporation is to acquire an appreciable section of the redwood area at prices that will not exceed a total of $150,000,00 for the approximate 2,100,000 acres of forest land located in the four coastal counties of California.

In brief the corporation would have full control of the redwood area, the private as well as the state and federal held lands. Provision would be made for logging, reforestation, payment of taxes taken from counties, etc.

AP Newsfeatures

Every summer complaint from the lowly mosquito to the glowing sun can cause you misery this summer. You've got to be wary and alert to keep from being stung by a bee or slipping on a boat deck.

Even if you feel as at home in the water as a goldfish, you've got to know that swimming pool. Rivers and lakes have unsuspected holes, oceans have undertows and waves that can challenge swimming champions. Never swim out too far when you are alone or when a lifesaver isn't within earshot. If you eat lightly before you swim, you will avoid a sudden cramp which can drag you down even if you are your high school's backstroke wonder.

Heat exhaustion takes a big toll of foolhardy sun seekers who overexert themselves. You can't play a game of tennis or golf or take a long sunbath in the hot sun without sizzling. You'll have to take lots of salt tablets or a mixture of salt with water to avoid nausea and dizziness that precede complete collapse, if you get too much sun. Drink lots of liquids (not too cold) and keep out of the sun when it is hottest.

If you do get knocked out, let's hope your pals have enough sense to keep you warm as you lie down with your head level or lower than your body and feed you some salt.

You can always avoid getting a sunburn whether you spend your vacation days on your roof or at a resort. Take small doses of sun each day and let your skin darken from a light pink blush to a rosy brown or a golden bronze. Butter yourself with good suntan ointments before going out into the sun. Be sure to wear sunburn protection each day even on cloudy days and remember that it's a good idea to keep out of the sun during the heat of the day.

Well, you probably say, I don't have to worry, I'm going to the shady mountains on vacation. Oh, no? Well how about poison ivy, cuts and scratches, insect bites, bruises and even hay fever?

You may think you're immune to poison ivy but even so, don't attempt to make a corsage of it — there's always the first blister.

If you cant' recognize poisonous parasite plants, look them up in your dictionary. They'll describe them and maybe show pictures. It makes me itchy just to think of them.

Wash thoroughly after you've tramped through woods—even if you haven't seen a speck of ivy. Doctors suggest using a good strong yellow kitchen soap and hot water, washing several times. Rinse with cold water and pat, dont' rub, dry.

If you do get a dose of ivy poisoning, first use the yellow soap (which contains no oil to spread infection), get some calamine lotion from the druggist or apply epsom salts dressings to relieve itching until the doctor arrives.

If you walk around beach grass or mountain paths in your bare feet, you'll take the risk of stepping on glass, stone, nails or sea shells. Deep cuts need a doctor's attention immediately to avoid tetanus but the wound should be kept open by soaking in water until the doctor arrives. Little cuts should be treated with good mild antiseptics and covered with small gauze dressings.

If you engage in a summer safety program you should have a safe and sane summer. So important does one railroad (Baltimore and Ohio) think safety is for their employees, that they have instituted an essay contest with prizes for sons or daughters of railroad employees on the subject of safety. They hope to stress the importance and value of safety in the households of their employees.

Safety experts say that only three diseases — heart disease, cancer and cerebral hemorrhage —cause more deaths than accidents.

No matter where you spend the summer you'll probably get your share of stomach aches from ice-cold drinks, strange food combinations, too many sweets, or too much meat. Eat lightly before engaging in sports and don't eat at food stands where the food is allowed to stand out in the hot sun all day long.

If you get an upset stomach as a result of eating the wrong food, stay away from all food for a day and drink plenty of tea and tepid water. If the pain in the stomach is severe and you feel feverish, call your doctor.

Backed and directed by the Ukiah Recreation department, the prospects of a most successful season are bright with enthusiasm being shown by merchants and other organizations willing to put a team in a league.

Prospective sponsors so far are V. F. W. Post, Palace Hotel, the Redwood Journal, the Park Motel and Republican Press. More sponsors are needed to completely fill the vacancies and merchants or heads of organizations interested are urged to attend tonight's meeting with Bill McGuire of the recreation department.

Any parent or others interested in working out with the boys will also be welcomed.

Boys between 10 and 14 are asked to contact Mr. McGuire at the City Pool and have their names put on the eligible roster if they are not among those who have already made their wants known. To date the town is teaming with young peanut teams anxiously waiting for organization and sponsorship.

AUSTRALIAN WOOL – MONEY MAKER FOR CONTINENT

By Barbara Gormly
AP Newsfeatures

SYDNEY, Australia.—Back in 1807 Australia made its first export of fine wool—245 pounds to England.

This season is continent is shipping around 720,000,000 pounds to 40 countries.

When Australians are on a good thing, they say they are riding on the sheep's back. That is just what Australia is doing today. A good wool seasons means prosperity for this country's 7,580,000 people, and this year wool prices are higher than ever before.

The story behind Australia's wool industry explains why you can get winter woolies today that won't prickle The story goes back to this country's birthday, January 26, 1788. On that day a handful of sheep landed with the first convicts.

These first sheep were a far cry from the "golden fleeced" Australian merinos of today. They came from the Cape of Good Hope, had hairy fleeces and fat tails. They were valued mainly as food.

A year later 29 Spanish merinos arrived in Australia, also from the Cape of Good Hope. Two of the rams and four ewes were bought by a Capt. John MacArthur, who is credited with being the man who really got the wool industry started.

AUSTRALIAN MERINO

The industry grew in leaps and bounds. Quality improved with careful breeding. By 1828 English millers were saying Australian wool was better than any but the best German wools. In 1835 England imported 4,000,000 pounds, then 13,000,000 pounds in 1842.

Prices were high. Wool became the basic industry of the new country. But in 1843 the wool bubble burst. Sheep prices in Australia dropped until one sheep farmer sold his 9,000 sheep at a shilling per dozen—16 cents U.S. at today's exchange rate. By 1844, 200,000 sheep had been "boiled down" for tallow. Tallow was worth about 8 cents a pound.

But by the end of 1844 prices were on the rise again. Flocks were increased. In 1850 there were 16,710,566 sheep in Australia. Sheep farmers continued to improve their stock. They imported more Spanish merinos, also Rambouillet merinos from France, Nigretti merinos from Germany and Vermonts from the United States.

These sheep are the ancestors of the present-day world-famous Australian merino flocks. Today there are about 70,000,000 merino sheep in this country. Other breeds bring the sheep population to around 110,000,000.

Australia produces more than half the world's fine quality merino wool. An embargo on the export of merino stock is rigidly enforced. Australia aims to keep the fine merino strain she has developed.

This year's wool check is expected to be more than $595,000,000. The previous high was about $496,000,000 in 1948.

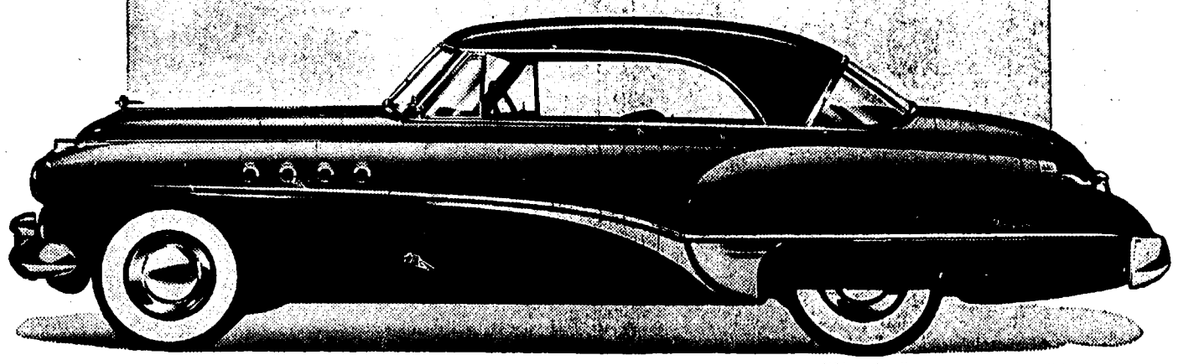
Who'll be First with the Last Word?



White sidewall tires, as illustrated, available at extra cost.

ACT QUICKLY—and in your neighborhood it might be you.

For there's no doubt that this exciting new Riviera model — styled and executed by Buick — is the very last word in new body types.

It has, as you see, the swift and racy lines of a Convertible, made even more distinctive by a bold new sweep of chromium along its fenders.

But the top is solid—a single sheet of stout steel, neatly finished off inside with chromium bows. And a broad rear window curves gracefully around, giving really abundant rearward vision.

Push-button controls drop all windows out of sight at a touch, leaving not even a doorpost to block your outlook. And the interior trim is the richest yet — a really stunning creation inside as well as out.

As pictured here the Riviera is now in production on the Buick ROADMASTER chassis — which means 150-hp Fireball power, the silken luxury of Dynaflow Drive, and the matchless levelness of the Buick "dream ride." That means "the last word" in brilliant performance as well as in luxurious dress and styling.

Production on this high-styled road star is limited, as you might expect.

To be "first with the last word," therefore, it is wise to see your Buick dealer soon about getting your order in.

HOPLAND NEWS OF INTEREST

FORTY MEN FIGHT FIRE

A grass fire broke out about noon on Tuesday by the road north of the A. F. Moulton ranch at Largo and when it was discovered it was going rapidly through the grass and underbrush on the Moulton Ranch. Hopland, Willits and Laytonville Forestry trucks came to fight the fire and the Ukiah truck was called. About 40 men from near by ranches and Hopland went to help fight fire. Nearly 100 acres was burned on the Moulton ranch and on the Ernest Ruddick ranch and the fence between the two ranches was destroyed. With a north wind blowing, the danger of the dwellings on the Moulton ranch was felt for about an hour until fire trails were built and enough men and equipment were on the scene. A portable fire fighting tank from the Fitzgerald Ranch was also used to extinguish the fire.

Mr. and Mrs. Ed Kellogg of the Fitzgerald Ranch and daughters Nancy and Susan spent the week end with Mrs. Kellogg's family near Modesto. Mrs. Kellogg and daughters remained there for a week's stay.

A group of Ukiah girls defeated the Hopland girls in a baseball game last Monday night. June Heitz pitched for the local team.

The town team played a 15 inning game with Covelo in the heat of Sunday, June 12 and won by a score of 8 to 7.

TWO TEACHERS JOIN STAFF

The school bells rang in Hopland Friday morning for the last time until next fall. A successful school year is past and plans are already in the making for even a better one next term. The grammar school graduated 15 eighth graders and have tentavely counted 20 beginners who start next fall. The high school had five seniors who completed four years of schooling and Jack Beasley, U. S. Navy, was able to be on the stage to receive his hard worked for diploma.

There will be no change in the high school teaching staff but Ledo Matteoli will leave the grammar school and two teachers have been hired for next year. John Barrati of Arcata will teach the seventh and eighth grades. He will also build up the athletic program in the school as he has specialized in athletics. He has been coach and director of athletics of the Arcata Teachers College elementary school the past year and his coming to Hopland school is being looked forward to by everyone concerned. With his wife and two pre-school children he will make his home in the Zanoline house on the hill.

Miss Betty Neese will teach the fifth and sixth grades. She has been teaching in Willits and next year will supervise the girls P. E. along with her teaching duties.

Mr. Frank Schieber will have no classes to teach and will devote his time to his principal duties, remedial work, and a full time music program. He plans to have 60 students taking music.

Mr. Schieber has enrolled at the College of Pacific for six weeks graduate work. Mr. Matteoli left for Miranda where he and his family will vacation for a week and then they will move to Eureka where Mr. Matteoli will sell New York Life Insurance.

FLAG BENEFIT SUCCESSFUL

The card party given by the American Legion Auxiliary Friday night was very successful. Ninety flags for the Legion building. The grocery box was won by Mrs. W. R. Kelly and the chicken dinner by Joseph Fraumeni of San Francisco.

Cake and coffee were served by the committee which included Mrs. Mary Milone, Mrs. Alma Schindler, Mrs. Julia Proctor and Mrs. Mae Cox. The ladies of the Auxiliary thank everyone for assisting and cooperating to make the party a success.

Mrs. Inez Philbrick was given a surprise shower Thursday afternoon. Grammar school pupils and their parents, teachers, and her friends gave her household and personal articles to help her replace the things she lost in the June 10 fire. The party was arranged by Mrs. Edna Harpe and Mrs. Ella Dawe.

Mrs. Philbrick has completed six years of teaching here and the party given her showed the high esteem in which she is held by the community.

Mrs. Buss Watt suffered blood poisoning from the cuts and burns she received when their home burned on June 10. She was treated by a Cloverdale doctor and the poisoning was checked.

JUG BURNS RUG

The Paul Scammons arrived home last Tuesday to an unexplained situation. The reflection of a jug on their front porch had started a fire which burned a large rug on the front porch of their home and part of the porch and then went out. What extinguished the fire is unknown.

Mrs. Andrew Cooper and daughter came from Brownfield, Texas, to see Mrs. Val LaMastus of Boonville, who is seriously ill. Mrs. Cooper is a sister of Mrs. La Mastus and of Ernest La Mastus of Hopland. They will divide their time between the two homes while here. Mrs. Val La Mastus's two sisters flew here from Texas last Friday to be with their sister.

Mr. and Mrs. Jack Bliss and Carl Rock Jr. were here with the Senior Carl Rocks over the week end. Mrs. Julia Smith was here from Thursday until Saturday with her sister, Mrs. Rock Sr. She came from Hanford.

Patricia Manning celebrated her fourth birthday last Thursday at a birthday party given by her mother, Mrs. J. F. Manning. Invited to enjoy the afternoon with Patricia were her cousins, Mary and Tommy McFarling, Vicki Fried and her cousin, Denny Leri of Santa Rosa, Susan and Nancy Kellogg, Tammy Osborne, and Marilynn and Patty Sue Dooley.

4-H boys and girls and their leaders left here early Sunday morning for a week at Mendocino Woodlands. The leaders from Hopland are Mrs. Dorothy Abert, Mrs. Mary Buckman, Mrs. Helena Vassar and John Benton.

The camp has 200 attending with John March of Potter Valley, camp director; Mrs. William Rapp, program chairman; Miss Sohr in charge of crafts; Mrs. Peggy Fratis, folk dancing; Miss Gloria Pacini, life guard and swimming instructor; Mrs. Lucille Greca, nurse; Mrs. Dorothy Abert in charge of the food with Mrs. Mary Buckman and Maggie Wycoff, cooks. William Rapp will teach a course in photography and there are numerous other activities. The Forestry will conduct several educational tours and Woodbridge Metcalf of the University of California at Davis will spend at least two days with the group. There will be a radio program put on by the camp but the day and hour is not known.

Members of the sewing group who are attending from Hopland include Patricia and Marlene Hetzel, Beatrice Williams, Jo Ann Anderson and Judy Damiano. Members of the agriculture group are Billy Crawford, Richard Ruddick, Robert Dempel, Dennis Stevens, Robert Lee, Arthur Castiaux, John and Michael Manning, Walter La Delle, James Crandell, Ramona and Sandra Staples.

The C. E. group under the leadership of Mrs. Charles Hetzel had a picnic last Friday evening. Mr. and Mrs. Hetzel, Mr. and Mrs. James Crawford, Mrs. Cline and Mrs. Kilcrease, chaperoned the young people. Those in the fifth and sixth grade C. E. group are Marlene Hetzel, Marcia Bishop, Lucile Ingel, Betty Sue Kilcrease, Patsy Cline, Doris Williams, Carol Ann Cunningham, Anna Egan, Patricia Hardwick, Ramona Abert, Orlin Brown, Kenneth Smith, Billy Crawford and Billy Hooker.

Richard Metzler returned Friday night after a weeks vacation spent with Mr. and Mrs. Dan Sells in Lakeview, Oregon. They went toward Hart Mountain to see the famous antelope herd.

Joseph Fraumeni of San Francisco was a recent guest of the Lee Castauxs. He came up to see Bernice Castiaux graduate.

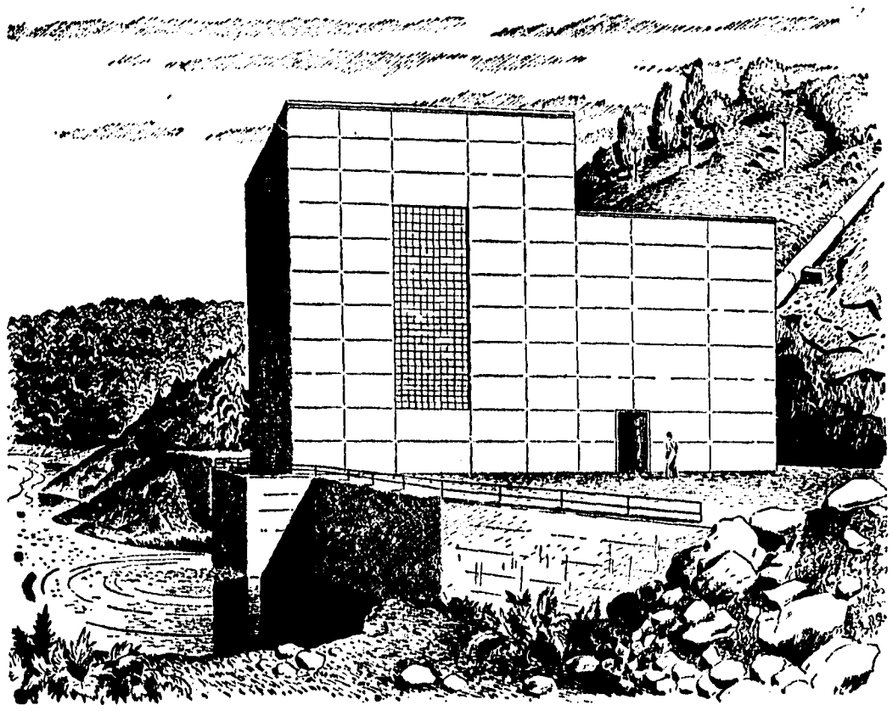
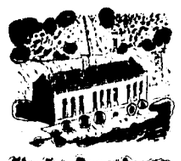
Another P. G. and E. power-producer on the line



Colgate is fifth plant added to the system in thirteen months

There's new power pouring from the Yuba River today... 40,200 horsepower. A year ago the tumbling Yuba waters began spinning the generators in P.G. and E.'s new Colgate plant built to replace the pioneer Colgate unit that first supplied Oakland with electricity half a century ago. Colgate is just one of the many powerhouses ...completed or building...in P.G. and E.'s postwar expansion program, which is adding nearly two million horsepower in new generating capacity to our system. In the past thirteen months alone this program has paid big power dividends... a total of almost 600,000 horsepower from five new major plants. In addition to Colgate, they are:

Kern Steam Plant, near Bakersfield, began turning out 101,000 horsepower for California in May, 1948.



Electra Powerhouse, on the Mokelumne River, 133,000 horsepower, came on the line in July, 1948.

West Point Powerhouse, also on the Mokelumne, added another 21,000 horsepower in November, 1948.

Station "C," the steam giant by San Francisco Bay added 293,000 horsepower in February, 1949.

Work never stops on our power-building program

ARENA COVE UNDER CONSIDERATION

Northern California is in "urgent need" of more small craft harbors, both for fishing and recreation, the Army Corps of Engineers office has announced.

The engineers have been investigating harbor sites along California's coast since 1946. They now recommend 12 sites for small craft refuge and three for recreational use.

Arena Cove in Mendocino County is the only harbor under consideration in the county. This is one of the 12 sites suggested as refuge sites along the coast.

Colonel S. N. Karrick ,acting division engineer, listed eight sites whose development as harbors could not be justified. Among the eight are four in this county: Mendocino Bay and the mouths of Greenwood creek, Albion and Little Rivers.

NOTE OF APPRECIATION

I sincerely wish to thank the people of Hopland for their kind consideration and effort expended in fighting the blaze here which threatened the town. Particular thanks go to the boys of the U. S. Forestry Service, the Hopland Department and all others.

Commencement Theme

ADJUSTMENT OF COMMUNITY TO EXPANSION

ELEMENTARY

Principal F. F. Zeek presented the class of '49, Ukiah Elementary school, at most commendable exercises in the auditorium of the school Thursday evening. The Principal handed diplomas to 110 students and stated that the class, high in scholastic standing, counted quite a number of artists in the group. He emphasized that character and reputation are the most valuable assets through life.

District Attorney James E. Busch gave the commencement address speaking in lighter vein. But in closing he gave with force and logic what it means to be an American in the world today and the opportunities before the young members of that class.

A novelty number on the program, "Clancy," led by Duane Southwick and presented by the Boys' Chorus, was a diversion greatly enjoyed by the large audience.

AUCTION OFF THE SURPLUS

"You don't need to tell people like that how to get along in this world," was the comment of Principal W. A. Chessall following a story on the class told at the graduation exercises Friday night.

Mr. Chessall stated that after the reserved seats for graduation were distributed there were 17 tickets over. He asked the members of the class in session who would like an extra ticket or two.

The class rose en masse for those extra tickets, 83 of them. What could Mr. Chessall do? He consulted another member of the school staff without favorable results. Finally he passed the 17 tickets over to the president of the student body, without comment. He auctioned them off and there was no trouble whatsoever. The proceeds went into the student body fund. Hence the Principal's comment on "getting along in the world."

HIGH SCHOOL

"Our Community Adjusts Itself To Its Expansion" was the timely and informative subject of the graduation addresses at commencement exercises of Ukiah Union High school, Friday night in the auditorium of the school.

This is a centennial class, Principal Chessall said, in presenting the class of '49. It is the 47th commencement. Mr. Chessall paid tribute to the late Clyde Eddie, a trustee of the school. He presented the Bausch Lomb science award to James P. Ashford and made special mention of students receiving diplomas who were not on the stage. In conclusion their principal wished the members of the class happiness in a better world, with better understanding of each other and of other races, creeds and colors.

A crowded auditorium was given some excellent advice on subjects vital at the present time to the community. Speaking on "Culture," Mary Kunzler said that development of culture would not reduce a community to permit certain types of dance hall entertainment or poorly selected pictures; nor would such a community be forced to interfere with private enterprise to accomplish these ends.

The speaker paid tribute to Ukiah Community Concert Association as adapted to "mature" residents of the community. Organization of such groups as the Art Center, Paul Hansen's group and the Folk Dancing was also contributory to cultural development in the opinion of the speaker.

"A city should never sell any of its parks" commented Arlene Gillette, speaking on "Recreation." The subject was paramount in a recent city election and is still a live issue in this community.

Student speakers and their subjects were: "Our Background," Francine Douglass; "Public Utilities," James Ashford; "Education," Eloise Wada; "Streets and Roads," Lino Nivolo; "Recreation," Arlene Gillette; "Culture," Mary Kunzler.

Students qualifying for life membership in the California Scholarship Federation are: Arlene Gillette, Francine Douglass, Mary Kunzler, Eloise Wada, James Ashford was awarded the University of California scholarship.

Diplomas were presented by Principal W. A. Chessall to 83 graduates.

BOY SCOUTS OF AMERICA

SOMETHING NEW IS BEING ADDED AT CAMP NOYO

The Sonoma-Mendocino Council, Boy Scouts of America, open their Summer Camp program on July 9, 1949. Already the first fourteen day period is filled with reservations and the second period is over half filled.

A new activity has been inaugurated for camp this year with the purchase of four Mossberg 22 rifles. The purpose of this activity is not to make marksmen of the boys, but to make safe gun handlers and shooters out of them. The range will be run under the strict supervision of a competent rifle range director. At no time will the boys be allowed on the range unless the director is with them.

Other new activities this year are archery and fly tying. The Summer Camp program as a whole is expected to be the most outstanding ever presented at Camp Noyo with a great many more boys taking advantage of this opportunity.

TEXT BOOKS STUDIED

Representatives from four different well known publishing houses went over with the members of the County Board of Education text books for the elementary schools of the county. The meeting was held Wednesday in Ukiah. Mrs. Margaret Byrnes, school supervisor, and Mrs. Neva Cannon, principal of the elementary school at Fort Bragg, sat in with the board for the purpose of advising with the members relative to the adoption of text books.

Particular attention was given to books for primary grades in reading and for the higher grades, social studies, American History and American Government.
